MAINE PUBLIC UTILITIES COMMISSION  
Investigation of Damage to Underground  
Facilities for 2001  
(Verizon)

ORDER APPROVING  
CONSENT AGREEMENT

Welch, Chairman; Nugent and Diamond, Commissioners

---

## **I. SUMMARY**

We approve the proposed Consent Agreement executed by Verizon and the Commission's Damage Prevention Investigator for resolution of this matter.

## **II. PROCEDURAL HISTORY**

On May 8, 2002, the Damage Prevention Investigator assigned to this matter issued a Notice of Probable Violation (NOPV) to Verizon (Respondent) for an incident that occurred on Nov. 7, 2001 at Villa Road, Westbrook. The NOPV indicated that, based on information submitted to the Commission, it appeared that the Respondent committed a probable violation(s) of Maine's Dig Safe law (Title 23 M.R.S.A. § 3360-A, relating to the protection of underground facilities) and the Commission's related rule, Chapter 895, entitled "Underground Facility Damage Prevention Requirements."

The NOPV indicated the incident location, the source of the report received by the Investigator, and the nature of the violation or violations charged. In addition, the NOPV indicated the range of potential penalties to which the Respondent could be subject and the Investigator's recommended penalty of a \$500 fine plus mandatory Damage Prevention Training for this incident. The NOPV described the process for the Respondent to acknowledge the violation(s) and to agree to the penalty under the Consent Agreement as well as the procedural options available to the Respondent to contest this charge.

On June 6, 2002, Verizon filed an initial response to this NOPV and requested a waiver of the training requirement. However, on June 10, 2002, the Respondent filed a signed Consent Agreement with the Commission, thereby accepting the Investigator's findings and recommended penalty.

## **III. LEGAL AUTHORITY**

Under 23 M.R.S.A. §3360-A (commonly known as the Dig Safe Law), the Maine Public Utilities Commission is responsible for enforcing the provisions of the law. The statute also directs the Commission to adopt procedures to gather information to hear and

resolve complaints of failure to comply with the law. These procedures are contained in Chapter 895 of the Commission's Rules, entitled "Underground Facility Damage Prevention Requirements," which became effective November 12, 2000.

#### **IV. DECISION**

After review of the evidence submitted in this case, we find the proposed Consent Agreement presents a reasonable resolution of this matter and approve it. The Respondent is hereby required to comply with the terms of the Consent Agreement or be subject to full penalty of law. As described in the Consent Agreement, the fine portion of this penalty will be waived if the required Damage Prevention Training is completed by August 5, 2002.<sup>1</sup>

Accordingly, we

<sup>1</sup> We view Verizon's signed consent agreement as a withdrawal of its request for a waiver of the training requirement. Verizon may notify us if this assumption is in error.
